WASHINGTON COUNTY FREE LIBRARY

Where People & Possibilities Meet

Genealogy is the study of family history and the discovery of one's roots. Tracing your family's ancestry takes basic research skills, patience and time. Start at the beginning - with yourself and your generation - and then just keep working backwards, generation by generation. Working with genealogy involves creating an important record that is fun, educational and leaves a lasting reference for your family.

Washington County Free Library is committed to helping researchers find the historical and genealogical information they are seeking. Genealogy resources are located in the circulating collection and can be found by searching the online catalog. Additional, non-circulating titles can be found in the Genealogy Reference area, located on the 3rd floor of the Alice Virginia & David W. Fletcher branch. Finally, researchers should plan to visit the John Clinton Frye Western Maryland Room, also located at the downtown branch. This special collection includes books and documents relating to the Cumberland and Shenandoah Valleys and Washington, Allegany, and Garrett Counties.

The purpose of this guide is to serve as an introduction to the genealogy resources available through the Washington County Free Library system. For further assistance, we welcome you to speak with a librarian.

Washington County was formed in 1776 from Frederick County, Maryland. Records prior to that date may be found in documents such as land records, church records, marriage licenses, etc. of Frederick County. In 1789, the western part of Washington County was formed into Allegany County and in 1872, the western part of Allegany County became Garrett County. Many people crossed over county and state lines, so it may be helpful to check records from contiguous counties and states in our collection to find the information you seek.

Veterans Records

You can request a copy of military personnel records for yourself or a relative from:

<https://www.archives.gov/veterans/military-service-records>

Military personnel records are primarily administrative records and can contain information such as:

- enlistment/appointment
- duty stations and assignments
- training, qualifications, performance
- awards and medals
- disciplinary actions
- insurance
- emergency data
- administrative remarks
- separation/discharge/retirement
- and other personnel actions

Detailed information about the veteran's participation in military battles and engagements is NOT contained in the record. Most Official Military Personnel Files contain both personnel and active duty health records, but this practice was discontinued by the service branches beginning in 1992.

An Index to Hagerstown Newspapers, 1790-1865

Newspaper articles, advertisements, and announcements (marriage and death, etc.) are indexed in print and online by subject of local and regional news published in Hagerstown's weekly and semi-weekly newspapers from 1790 to 1865.

Two digital microfilm scanners with an attached printer are available for public use on the 3rd floor of the Alice Virginia and David W. Fletcher branch. When using the Civil War-era microfilms, you may wish to speak with an information services librarian to help locate a particular issue on the multiple microfilms.

Marriage Records

The only existing marriage records for Washington County, prior to 1860, are the listings in the marriage index for 1799-1860. (The marriage licenses themselves have been lost for that time period.)
